REACT & REDUX

DATA STRUCTURES AND
ALGORITHMS

TEAM WORK AND TIME
MANAGEMENT

PROJECTS

GST - Giving and sharing trust website • Node js project • Team Project

We decided to start the organisation where we can do welfare of underprivileged people whenever we get time. As part of this I can start a project (for ex. Donating Food) as an admin and then it will be uploaded in the website and those who want to volunteer us they can also join us by filling the form. And if someone wants to donate, they can also donate in donate section.

- Technologies used - Nodejs , MongoDB , Expressjs , Razorpay(for payment gateway)
- Github link- <https://github.com/Harshs-125/GST-website-project>
- Project link- <https://gstnodeproject.herokuapp.com/>

Movieapp- A MOVIE LIST WEB APP • REACT APP • INDIVIDUAL PROJECT

It's a simple web app to organise list of movie user watch and to mark them as favourite or unfavourite including searching of movie across internet
